## Thoughts for Photo Shoots:

Downtown WW. Parade of Lights Dec 4<sup>th</sup> 6pm

Anyone interested in a photo shoot of Christmas lights around town give a shout and we'll get a group together.

## Photo Tip

Most digital cameras have a motor drive feature that allows you to take bursts of shots; you can shoot first and select the best images later. Beware that if you initiate burst shooting too quickly, your camera buffer may fill up and you may miss the end of the sequence. To help reduce this buffer problem, use fast data cards, and only shoot Raw photos if you need to.

*The club needs volunteers to arrange a place and dinner for the year end banquet which is Feb. 3<sup>rd</sup>.*
